Provision to be made for appeal to a nominated person for questionable results.</p> <p><u>2</u> That only hip x-rays taken after a dog or bitch has reached twelve months of age be acceptable.</p> <p><u>3</u> That dogs and bitches that are not already tattooed in the right ear must be tattooed at the time of x-ray. The tattoo number appears on the x-ray along with registration number of the dog. Microchip accepted for identification (passed 2019197)</p> <p><u>4</u> The National Rottweiler Council [Australia] adopt a standard application form to be used by all Clubs.</p> <p><u>5</u> The allocation of tattoo numbers for dogs and bitches will be done from a central point nominated by each Member Club (Breed Recorder).</p> <p><u>6</u> The Yellow AVA sheet (original) plus a stamped self-addressed envelope be sent to a central point nominated by each Member Club (Breed Recorder) with a copy of pedigree.</p> <p><u>7</u> Imported Rottweiler's who have fully complied with a Hip Dysplasia Scheme in their country of origin be accepted. However it was recommended that these dogs x-rays be rescored using the National Rottweiler Hip Dysplasia Scheme. In this way the results of progeny would show that dog's input re hips in relation to the actual score/grade.</p> <p><u>8</u> Results to be published by each Member Club in their normal manner and annually at least by the National Breed Recorder.</p> <p><u>9</u> Only dogs and bitches who receive a grading of 0, 1, 2 or 3 are suitable to be bred from. Rottweiler's with Grade 3 hips should be bred with care. Any Rottweiler with Grade 4 or above is not suitable for breeding. The combined Lawson Willis score for a breeding pair should not exceed a score of 25.</p> <p><u>10</u> Professor Wyburn will forward to the National Breed Recorder results, on a regular basis for distribution to Member Clubs.</p> <p><u>11</u> Elbow x-ray recommended but not mandatory at this time pending world scoring scheme.</p>	Updated

11	23/9/95	<p>NATIONAL IDENTIFICATION SCHEME COMMENCING</p> <p>1 It is necessary for all Rottweiler's to have a tattoo allocated for recognition of HD result for purposes of Breed Survey and to prove identity and ownership of dog. Only those dogs that have an appropriate tattoo will be eligible to have their results recorded by their State Breed Recorder and the National Breed Recorder. Puppies should be tattooed between 6 and 8 weeks of age, older dogs at time of hip x-ray.</p> <p>2 The following persons are able to tattoo. Club Tattoo Officers, Tattoo Officers from other breed clubs approved by the National Rottweiler Council [Australia] member Club and the AVA vets approved by National Rottweiler Council [Australia] Member Clubs.</p> <p>3 The Scheme is open to all Rottweiler owners regardless of whether they are Club members or not.</p> <p>4 Applications for tattoo numbers for adult Rottweiler's and applications for a Breeder tattoo Prefix must be made on the appropriate National Rottweiler Council [Australia] form issued by the State Breed Club.</p> <p>5 Alphanumeric system to be used. Club code and two letters plus up to 3 numbers ie 2 (NSW) LM (Breeder Prefix) 001 (first puppy from that kennel). If an adult dog was not tattooed with the selected prefix as a puppy, the State Breed recorder would select from available letters and allocate a Breeder Tattoo Prefix for that Kennel. All dogs bred by that kennel that subsequently applied for a tattoo number would be identified by that symbol, numbers would follow in order. If a kennel tattooed it's second litter of ten puppies the last number allocated would be for example 2LM010, if an older dog from their first litter then applied for a number it would be allocated the next available number 2LM011, the third litter would begin numbers at the next available number 2LM012.</p> <p>NOTE: In the case where a member applied to their State Breed recorder for a tattoo number for an older dog that was bred in another state, it will be necessary to contact the Breed Recorder in the dog's state of origin the next available number for that kennel.</p> <p>7 The State Breed Recorder will inform the National Breed Recorder of Breeders Tattoo Prefix's issued in their State so that the National Breed Recorder may compile an Australia wide list.</p> <p>8 Club Codes NT 0, ACT 1, NSW 2, Vic 3, Qld 4, SA 5, WA 6, Tas 7, Northern Districts 8,</p> <p>9 Dogs previously tattooed under present schemes be recognised and included in records.</p> <p>10 Club symbols which can be used for dogs that do not have a breeders prefix allocated. 55	4/10/02	NRCA CHAMPIONS TITLE Effective immediately, the NRCA is to implement a Champions title. A Rottweiler is to be awarded the title of NRCA Champion when it achieves the following: Ten (10) "V" ratings under ADRK or FCI breed Specialists, plus a pass in his/her National Breed Survey. Whilst we realise that the ANKC would never recognise this title, within the Rottweiler fraternity we believe that it would have far more importance than an ANKC title. 10 "V" ratings is achievable, but only by dogs of excellence, they also comply to the standard conformationally and temperamentally by passing the breed survey. The NRCA could supply title certificates, and as most clubs do when a Rottweiler gains an ANKC title, could provide an award by sash or plaque, as is already the case. We believe that this would encourage exhibitors to keep their good dogs in the ring in order to gain that tenth "V" and bring some other stud animals out to do their breed survey and therefore gain their title.	97 102

However, as the Club who drafted the original Motion, I can confirm from Club minutes that the intention has always been for dogs/bitches to have 10 V Ratings in the conformation ring PLUS a pass in a breed survey under FCI/ADRK judges. That is, that a V Rating given at a breed survey does not count. Please advise if you understand this to be the case.</p>
